Ground Protection Mat LDPE 2000 × 1000 × 15 mm

This double-sided ground protection mat is made of recycled LDPE plastic. It protects the ground and provides a stable surface when vehicles and machinery need to drive or stand on sensitive areas.

KEY FACTS

Material	Recycled LDPE plastic (100%)
Length	2000 mm
Width	1000 mm
Thickness	15 mm
Weight Capacity	15 ton
Item no.	2000x1000x15
Weight	29 kg
Minimum order	10 pcs

- Load capacity of up to 15 tonnes.
- Double-sided – both sides have a fine anti-slip pattern.
- 4 handles for carrying and positioning the mat.
- Can be connected along both the length and the width.
- Can be stored in a stacking box.

DESCRIPTION

It is used, for example, on construction sites and at events where lawns, planted areas or other ground need protecting for a period of time. The mats link together to cover larger areas and can be lifted and reused.

SUITABLE FOR THESE ENVIRONMENTS

- Construction sites
- Events & temporary barriers

MATERIAL AND DURABILITY

The mat is made of 100% recycled LDPE plastic. It is manufactured in Belgium.

MOUNTING

The mat is laid directly on the ground and carried into place using the 4 handles. To cover larger areas, connect the mats along their length and width using Easy connect or Heavy connect couplings. This allows large areas to be covered quickly. When not in use, the mats can be stored in a stacking box.

FREQUENTLY ASKED QUESTIONS

How heavy a vehicle can the mat support?
The mat has a load capacity of up to 15 tonnes and is designed as a surface for vehicles and machinery.

How do I connect several mats?
The mats are connected along their length and width using Easy connect or Heavy connect.

Can I use both sides?
Yes, the mat is double-sided and has a fine anti-slip pattern on both sides.

How much does one mat weigh?
A 2000 × 1000 × 15 mm mat weighs 29 kg and has 4 handles for handling.
