Ground protection mat LDPE 2400 × 1200 × 20 mm

This ground protection mat is a double-sided mat made from recycled LDPE plastic that protects the ground and provides a stable surface for vehicles and machinery.

KEY FACTS

Material	Recycled LDPE plastic
Length	2400 mm
Width	1200 mm
Thickness	20 mm
Weight Capacity	80 ton
Item no.	2400x1200x20
Weight	54 kg
Minimum order	10 pcs

- Load capacity of up to 80 tonnes.
- Double-sided: coarse anti-slip pattern on one side and fine anti-slip pattern on the other.
- 6 handles for handling and repositioning.
- Can be connected lengthways and widthways to cover large areas.
- Can be stored in a stacking box.

DESCRIPTION

It is used wherever heavy vehicles need to drive or park on sensitive or uneven ground, for example on construction sites, at roadworks and at events.

SUITABLE FOR THESE ENVIRONMENTS

Construction sites · Roadworks · Events & temporary barriers

MATERIAL AND DURABILITY

The mat is made from 100% recycled LDPE plastic. It is manufactured in Belgium.

MOUNTING

The mats are laid directly on the ground and connected lengthways and widthways using Easy connect or Heavy connect connectors. This allows you to cover larger areas quickly. When not in use, the mats can be stored in a stacking box.

FREQUENTLY ASKED QUESTIONS

How much load can the ground protection mat take?
The mat has a load capacity of up to 80 tonnes.

What is the difference between the two sides of the mat?
One side has a coarse anti-slip pattern and the other a fine one, so you can turn the mat over as required.

Can several mats be connected together?
Yes, the mats are connected lengthways and widthways using Easy connect or Heavy connect.

How do you handle a mat that weighs 54 kg?
The mat has 6 handles that make it easier to carry and position.
