Lock housing with profile cylinder and fire brigade triangle for swing height restrictor HBS 50/54

Lock housing with profile cylinder and fire brigade triangle for the main post of the Mannus HBS 50 and HBS 54 swing height restrictors.

KEY FACTS

Locking Mechanism	Euro profile half cylinder, Triangular lock per DIN 3223
Locking	Keyed Alike
Item no.	103819

DESCRIPTION

The beam can be opened either with a key or with a triangular key of the type used by the emergency services (similar to DIN 3223), so emergency vehicles can get in without anyone having to hand over a key.

A locking bolt engages automatically when the beam is swung into one of the 90° positions. The profile half-cylinder is 30/10, keyed alike, and the key can be removed in both the open and closed positions. Triangular key sold separately.
