Ground Protection Mat LDPE 2400 × 1200 × 15 mm

This ground protection mat is a double-sided mat made from recycled LDPE plastic that protects the ground and provides a stable surface for vehicles and machinery.

KEY FACTS

Material	Recycled LDPE plastic (100%)
Length	2400 mm
Width	1200 mm
Thickness	15 mm
Weight Capacity	50 ton
Item no.	2400x1200x15
Weight	43 kg
Minimum order	10 pcs

- Load capacity of up to 50 tonnes.
- Double-sided: coarse anti-slip pattern on one side and fine on the other.
- 6 handles for handling.
- Connects along both the length and the width.
- Can be stored in a stacking box.

DESCRIPTION

It is used wherever ground, grass or sensitive surfaces need protecting, for example on construction sites, during roadworks and at events. The mats connect together, so you can quickly cover large areas.

SUITABLE FOR THESE ENVIRONMENTS

- Construction sites
- Roadworks
- Events & temporary barriers

MATERIAL AND DURABILITY

The mat is made from 100% recycled LDPE plastic. It is manufactured in Belgium.

MOUNTING

The mats are laid directly on the ground and connected along their length and width using Easy connect or Heavy connect connectors. This lets you quickly build up a continuous surface. The 6 handles make it easier to lay out and pick up the mats, and when not in use they can be stored in a stacking box.

FREQUENTLY ASKED QUESTIONS

How much load can the ground protection mat take?
The mat has a load capacity of up to 50 tonnes and provides a stable surface for vehicles and machinery.

Which side should face upwards?
The mat is double-sided, with a coarse anti-slip pattern on one side and a fine one on the other, so you choose the side that suits the ground and the application.

How do I connect several mats together?
The mats are connected along their length and width using Easy connect or Heavy connect, allowing large areas to be covered quickly.

How heavy is the mat to handle?
The mat weighs 43 kg and has 6 handles to make handling easier.
