Ground Protection Mat LDPE 3000 × 1000 × 15 mm

This ground protection mat is a single-sided mat made from recycled LDPE plastic that protects the ground and provides a stable surface for vehicles and machinery.

KEY FACTS

Material	Recycled LDPE plastic (100%)
Length	3000 mm
Width	1000 mm
Thickness	15 mm
Item no.	3000x1000x15
Weight	42 kg
Minimum order	10 pcs

- Load capacity of up to 45 tonnes.
- Single-sided mat with anti-slip chequer plate pattern.
- Four handles for handling.
- Can be connected along the length and width to cover large areas.
- Can be stored in a stacking box.

DESCRIPTION

It is used wherever heavy vehicles need to drive or stand on sensitive or soft ground, for example on construction sites, during roadworks and at events.

SUITABLE FOR THESE ENVIRONMENTS

- Construction sites
- Roadworks
- Events & temporary barriers

TECHNICAL DATA

Weight Capacity	45 ton
Design	Single-sided

MOUNTING AND FIXING

The mats are laid directly on the ground and connected along their length and width using Easy connect or Heavy connect connectors, allowing large areas to be covered quickly. When not in use, the mats can be stored in a stacking box.

MATERIAL AND DURABILITY

The mat is made from 100% recycled LDPE plastic. It is manufactured in Belgium.
