Single Clamp 60 mm Alu for Road Signs on Ø60 Posts

The single clamp is a single-sided aluminium bracket that mounts a road sign on a post with a diameter of 60 mm.

KEY FACTS

Material	Aluminum
Diameter	60 mm
Dimensions	70 x 60 mm
Length	70 mm
Width	60 mm
Item no.	41582530601
Dimensions (L × W × H)	7 × 6 cm
Weight	0.3 kg

- Fits posts with a diameter of 60 mm
- Fits extruded signs and signs with an edge rail
- Tightened with a single M8 bolt – older sign systems required three
- Single-sided aluminium design

DESCRIPTION

It is well suited to extruded signs and signs with an edge rail, such as the A9-1 Warning for speed bump sign, and is used wherever road signs are put up along streets, roads and car parks.

MATERIAL AND DURABILITY

The single clamp is made of aluminium.

MOUNTING

Hook the clamp onto the sign's edge rail or profile, place it around the post and tighten the M8 bolt. A standard-size road sign, such as A9-1 Warning for speed bump, is mounted with 2 single clamps.

FREQUENTLY ASKED QUESTIONS

How many single clamps do I need per sign?
A standard-size road sign, such as A9-1 Warning for speed bump, is mounted with 2 single clamps.

Which signs does the single clamp fit?
It fits extruded signs and signs with an edge rail.

Which post diameter does the clamp fit?
This clamp fits posts with a diameter of 60 mm.
