BICYCLE & MOTOR BIKE SOLUTIONS

BARREL ROOF SECURE "XL" SHELTER FOR BICYCLES AND MOPEDS

New products 2025

TECHNICAL SPECIFICATIONS

> Dimensions:
width 6225 x height 2646 x depth 2834 mm
> Structure: 80 x 80 mm galvanised steel posts
> Roof: 40 x 60 mm steel cross-members and aluminium gutters, painted in our colours, 10 mm thick anti-UV-treated polycarbonate honeycomb canopy. Anti-intrusion roof reinforcements
> Cladding: decorative metal sheet or 1.2 mm thick rectangular mesh made from 5 mm Ø wire welded to a Galvanised and painted steel angle frame
> Single door: top section in decorative metal sheet or Ø 5 mm square mesh, bottom section in 1.5 mm thick metal sheet. Unlocking options: choose from a European lock and key, a mechanical digital code, or a smart connected lock for seamless access. Door opens from the inside without keys. The door is held open and closed by a cylinder

INSTALLATION RECOMMENDATIONS

> On galvanised base plate 200 x 200 mm, height-adjustable feet, expansion plugs supplied

OPTIONS

> LED lighting: ribbon of LEDs integrated into the structure and assembled in the factory. 220V power supply, to be connected by a professional (circuit breaker not supplied)
> Connected lock: allows access by smartphone or badge (replaces European lock/key). Easy to install and requires no electrical connection
